## MISSION STATEMENT

---

The mission of the Disability Rights Network of PA (DRN) is to advance, protect and advocate for the human, civil, and legal rights of Pennsylvanians with disabilities.

## ABOUT DRN

---

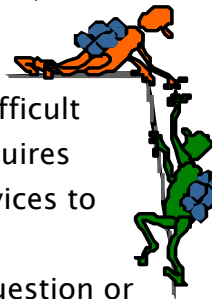

Disability Rights Network of PA is a federally funded, non-profit agency responsible for advancing and protecting the civil rights of adults and children with disabilities. DRN works with people with disabilities and their families to ensure their rights to live in their communities with the services they need, to receive a full and inclusive education, to live free of discrimination, abuse and neglect, and to have control and self-determination over their services.

## HOW CAN THE FACILITY ADVOCATES TEAM HELP YOU?

---

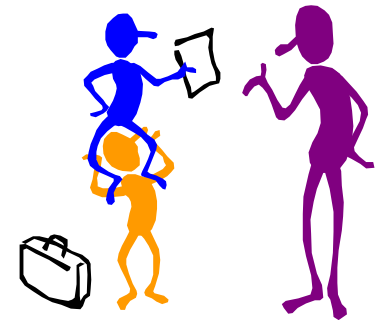

If you, a family member or friend live in a state-operated mental retardation center, you can contact a DRN facility advocate to help when:

- You or your family member/friend have experienced abuse or neglect;
- You have a question about disability rights;
- You have a difficult issue that requires advocacy services to help resolve;
- You have a question or concern about the services provided at the center;
- You or your family member want assistance with transition to the community; or
- You want to join a self-advocacy group.

## INFORMATION AND TRAINING DRN CAN PROVIDE

---

- DRN can provide interested parties with copies of any disability rights legislation, state laws and regulations about services for people with disabilities, and referrals to other agencies with expertise in particular areas of human services.
- Facility advocates can provide training regarding the rights of people with developmental disabilities, how to assess the quality of a service, and self-advocacy.
